Re: ***Consent Agenda - 3. Approve Interlocal Agreement with Oakland County for P25 Simulcast System***

Date: February 3, 2026 - [Click to View Agenda](#)

Summary:

Oakland County is updating user agreements for all agencies that use the Oakland County P25 Simulcast Radio System. Since 2004, the County previously operated a countywide legacy system that is now end-of-life. The recent upgrade of the radio system necessitates an updated agreement. The updated agreement has been reviewed by the Public Safety Director, Village Manager, and Village Attorney.

The agreement (1) ensures accurate records of authorized users (2) Supports system security, governance, and compliance policies, and (3) confirms ongoing participation in the P25 Radio System.

Financial Impact:

There is no immediate change to the Village's operational use of the radio system. Ongoing costs and fees associated with system use, maintenance, and subscriber equipment are governed by the system policies and invoiced by Oakland County on a quarterly basis, consistent with past practice.

Recommendation:

BE IT RESOLVED, the Beverly Hills Village Council hereby approves the Oakland County P25 Simulcast System Interlocal Agreement and authorizes the Village Manager to sign on behalf of the Village.

**OAKLAND COUNTY P25 SIMULCAST SYSTEM
INTERLOCAL AGREEMENT
BETWEEN
OAKLAND COUNTY AND VILLAGE OF BEVERLY HILLS**

This Agreement ("the Agreement") is made between Oakland County, a Constitutional and Municipal Corporation, 1200 North Telegraph, Pontiac, Michigan 48341 ("County"), and the **Village of Beverly Hills**, 18500 W. 13 Mile Rd. Beverly Hills, MI 48025 ("Public Body"). In this Agreement the County and the Public Body may also be referred to individually as "Party" or jointly as "Parties."

INTRODUCTION/PURPOSE OF AGREEMENT.

Since approximately 2004, the County has operated and maintained a County-wide interoperable public safety communications system for use by the County and for use by governmental entities and private public safety entities located within Oakland County ("2004 System"). The County was the owner of the 2004 System. To properly operate, manage, maintain, and repair the 2004 System, the County entered into interlocal agreements with the governmental entities using the 2004 System--delineating the relationship and responsibilities of the parties. That interlocal agreement was approved by the Oakland County Board of Commissioners in Miscellaneous Resolution #05158.

The 2004 System is now end of life and since 2020, the County has been constructing and implementing a new public safety P25 Simulcast System, which is integrated with the Michigan Public Safety Communications System. The P25 Simulcast System replaces the 2004 System. To properly operate, manage, maintain, and repair the P25 Simulcast System, the Parties must enter into an Interlocal Agreement that will terminate the interlocal agreement concerning the 2004 System and delineate the relationship and responsibilities of the Parties regarding the operation, management, maintenance, and repair of the P25 Simulcast System.

Accordingly, pursuant to the Urban Cooperation Act of 1967, 1967 PA7, MCL 124.501, *et seq.*, the County and the Public Body enter into this Agreement for the purposes set forth herein. In addition, through this Agreement and the operation of the P25 Simulcast System, each Party will be better prepared to serve and to provide aid to citizens of and persons in Oakland County, Michigan.

In consideration of the mutual promises, obligations, representations, and assurances in this Agreement, the Parties agree to the following:

General Updates

- HRC will be holding a **community information meeting** on the **Eryt Dam Study** on **Tuesday February 10th at 7:00 p.m.** Below is a copy of the postcard that was mailed to nearby residents.

Public Meeting - Eryt Dam Feasibility Study

The State of Michigan Department of Environment, Great Lakes, and Energy (EGLE) recently complete a routine inspection of the Eryt Dam. As part of this review, EGLE identified several maintenance and monitoring needs and recommended that the Village evaluate potential long-term improvements to the dam. In response, the Village of Beverly Hills is proactively exploring the best path forward for this Village-owned asset, including understanding future costs, long term viability, and potential alternatives through a comprehensive Feasibility Study.

To support this effort, the Village of Beverly Hills applied for and was awarded a grant from EGLE to conduct a Feasibility Study of the Eryt Dam. As part of the study process, the Village will host a community engagement meeting to share information about the project, outline the options that will be evaluated and gather input from residents and stakeholders.

The Village of Beverly Hills would like to invite you to a stakeholder engagement meeting for the Eryt Dam Feasibility Study grant on February 10th at 7pm at Village Hall in the Council Chamber. This is your chance to learn more about the upcoming Study and provide any valuable input.

Project Updates

Safe Routes to School

All sidewalk has been installed (minus one flag that was not completed due to a utility pole relocation but will be finished in the spring). The contractor will also install trees and shrubs and install/touch up the restoration in the spring. Throughout the summer the contractor will be watering and cultivating these trees and shrubs and addressing any unestablished turf grass areas.

We ask that residents consider using alternate materials rather than typical de-icing chemicals or salt that contain magnesium chloride or calcium chloride to clear snow or provide traction after snowfall events. These chemicals will cause surface damage to the new concrete and may cause the surface of the concrete to “flake”. Shovel and clearing snow is the preferred method to reduce the potential for icy sidewalk conditions and sand is a material that can be used to improve traction. However, if slip and fall hazards need to be eliminated, use ordinary rock salt or table salt; sodium chloride (NaCl). Please use only the amount necessary and refrain from placing salt in preparation of a snowfall.

FY25/26 Road Improvement Project

The road improvement project is complete. The contractor will be back in the spring to complete minor punch list work and install/touch-up any turf grass areas that have not been established. A structure adjustment needs to be made in the RCOC right-of-way at Birwood and Greenfield. Additionally, the southwest corner of Birwood and Greenfield is being reevaluated as ponding has been occurring.

TAP Grant Sidewalk Connector Program

The contractor for the TAP Grant Sidewalk Connector Program is scheduled to start construction in March of this year (weather permitting). This project is slated to take approximately 9 months with restoration activities to continue through to the spring of 2027. Meanwhile, the required submittals for the retaining wall and bridge and have submitted and approved.

FY26/27 Road Paving Project

This project includes Pierce Road between 14 Mile and Beverly Road, Birwood between Bates and Edgewood, and Kirkshire between Bates and Edgewood. This project is scheduled to begin at the beginning of June and be completed prior to Labor Day.
